From day to day proof is forthcom a slow growth-that it is of the type of Minerva who sprang full-armed from the head of Zeus. This is evidently as true of the genius of the mart as it is properly supposed to be of the more esthetic forms of genius. An instance in substantiation of this opinion was recently related by a veteran business man as a side light on the why of the success of a well-known ndustrial leader.

"I remember him," it was related, "when he was a lad of six years. He wanted to trade a lantern for one owned by a playmate, which he admired. Coming to his father, he asked counsel about the matter and was informed that he should use his own judgment, "Well, dad," said the boy, "I believe I'll trade: but wouldn't you take the oil out first?" Earned Capital

... IS BEST ...

In investigating the financial standing of a man just entering business the mercantile agencies always try to find out whether he has earned and saved his own capital, or whether it was inherited

Dun and Bradstreet know that a man who has taken years to save his own capital has, during that time, formed habits of thrift and learned lessons in economy that will help him greatly to succeed, where the man whose capital "came easy' would fail.

There are many more reasons for saving than the mere amount of money to be accumulated. Have you started saving yet?

SURREYS BUGGIES SPRING WAGONS, ETC.

In Buying Vehicles there are Some things you should consider

No one can tell what kind of material is in a buggy after it is painted. You will have to depend largely on the reputation of the house you deal with. What a guarantee is worth depends on who the guarantor is. Deal with the man you have confidence in and with whom you can talk FACE to FACE

We now have the best stock on hand we have ever carried. Others are buying, why not you? A good buggy is an asset, not a liability, on every farm. Do not be a spendthrift, but be a THRIFTY SPENDER. Wise buying will save the individual, as well as the nation, from going against the rocks
